A VKRS Netlabel Release - Bestovitch - Hannibal's Jazz EP - vkrsnl034

"Since my last release i have been taking a different approach to the construction of my tracks. I have always wanted to experiment in the hip hop/breaks genre and felt now was as good a time as any. With the recent aquisition of 2 MPCs this has really helped me get the vibe and feel down. I have also just purchased a Dave Smith Mono Evolver Keyboard and think this will give a great sound to my electronic based music....."
