

## Mountain by The X-Structure

-----

To the Mountain we go on our journey of discovery. Prepared in advance for this coming challenge, if we so choose to see the signs and accept the teachings.

Along the way we will learn, see, feel and experience, only truly knowing the deeper truths of life because we are there living it.

We will discover purpose, nature revealed. We will witness beauty, meaning found. We will encounter glorious visions of grand splendour, wonderfully orchestrated by the loving hands of the Great Conductor of Life.

The Mountain reveals the wonder of it all. Through the brutal honesty of nature it breaks down the illusions created by our imaginary social boundaries. It is there where we experience the presence of a Greater Reality.

The Mountain is a symbol of many great things, bringing to light these deeper truths of life, and all along the way of effort, pain and perseverance, realisation, gratitude and brilliant moments of glory we will discover them.

The Mountain is a place of mystery, a place that inspires, a place of peace, a place that challenges. Ancient knowledge passed down through the movement of time, purpose revealed in the sight of a future glory.

Now is the time for the sleeper to awake. Now is the time to go on to the Mountain.

Words to "Here I Stand"

"The sun is righteous in its radiance.  
The moon hangs true to its cause.  
The clouds move on silently to fulfill their purpose.  
And here I stand, what am I to do but be thankful."
