Western Sunset 01  
Morning Madness 02  
Playground 03  
Black Water 04  
We Together 05

For Yarn Audio's seventh release, we have got hold of no one less than **Kacper Bogacz** aka. **KASP**, one half of the well-known Polish duo **Pol\_On**. This graduate of the Academy of Jazz Music in Katowice has released on many well known imprints such as **Systematic**, **Get Physical** and **Connaisseur** and remixed artists like Roberto Rodriguez and Dirt Crew and worked with the likes of Mike P and Catz 'N Dogz.

For his latest project, KASP creates a unique, joyful journey through diverse styles of modern bass music. The five track EP brings new-age electronica like Gold Panda to mind as well as the bass-influenced house scene and early UK Funky. Polished samples, raving synths and hybrid beats are mangled, meandering between childish delight and deep melancholia, dancefloor mania and spurred insight. A true showcase of this producer's exceptional versatility. Make sure to check Kacper's recent dancefloor project with **Mia Twin** if this release pleases your ears!

The release will be freely available on **Bandcamp** using a Creative Commons-license, which allows remixing.
