The UK producer Stanley Woodfield, better known under the project-name Red Star Martyrs, has been one of the most active artists since the start of our label. After having released two EPs, "I & I" (2013) and "Time for Tea" (2014) and contributing in the compilation "United as One" (2014), there was a silence for nearly 2 years. It has been a constructive silence ... and today we are happy to announce his first long player. We have been saving this one for you to be our last release of 2016.

The self-titled digital LP includes 14 brand new tracks of total length of 63 minutes from the producer who has managed to set his own sound-mark on our label. Rootikal vibes with a twist and melodic dubwise sounds with live instruments played mainly by Stanley himself are the key ingredients of his style. Guest appearances by I-Rebel, Don Goliath, Madi Simmons, Tallis, Trinity, Kontent, Squidgy Black and Pentti from Senti. Give thanks!
