### **About the Release**

*DuBoLoGy is a french dub maker based in Rennes, France.*

*Fan of all kind of music but especially Reggae and Dub (Jamaican dub of course, the French dub scene and all above the UK dub stepper style), he started to create his own dub a few years ago and decided to share his music for free in several web sites. You can find him today at [SoundCloud](#), [DubArk](#), [ReggaeDubWise](#) and [Talawar.fr](#).*

*He's also had one of his tracks, Dalifadub, released on **Revolutionary Dub Vibrations – CHAPTER 3**, from [Dubvibrations](#) and another track is due for release by French Netlabel [hiQdub](#) soon. The Internet has allowed him to meet passionate people for collaborations, remix, labels.*

*We're proud to have such a great artist release his first full-length album here at ADR.*
